How to link Telephone number and mail in HTML

Add link to phone number:

- Create an anchor element <a>.
- Enter your phone-number in the href attribute.
- Use tel attribute before the number inside the quotation marks.
- Include text in anchor element.

Add link to mail:

- Create an anchor element <a>.
- Enter your phone-number in the href attribute.
- Use mailto attribute before the number inside the quotation marks.
- Include text in anchor element.

HTML file:

index.html

tele-mail.html > index.html > html > body > div > p

```
<!DOCTYPE html>
<html lang="en">
<head>
    <title>link</title>
    <style>
        div{
            text-align: center;
        }
        p{
            font-size: 30px;
            color: #087d81;
            font-weight: bold;
        }
        a{
            text-decoration: none;
            color: #a52a2a;
        }
    </style>
</head>
<body>
    <div>
    <p>Contact using</p>
    <a href="tel:9876543210">Click to call</a> <br><br>
    <a href="mailto:raniyasiva@gmail.com">Click to mail</a>
</div>
</body>
</html>
```

Output:

Contact using

Click to call

Click to mail
